OBJECTIVE

I'm an AI and Data Science student at SRKR Engineering College (CGPA: 9.22/10.00) in my penultimate year, seeking a **Software Engineering Internship** at Google (Bengaluru/Hyderabad). Proficient in Python, with a strong grasp of data structures, algorithms, and Unix/Linux. I enjoy building real-world projects and am eager to tackle challenging problems, learn from Google's engineers, and contribute to impactful products in a collaborative environment

SKILLS

Technical Skills

- **Programming:** C, Python, Java, R
- **Core CS Concepts:** Data Structures and Algorithms (DSA)
- **Machine Learning:** scikit-learn, NLTK, Basic supervised & unsupervised learning
- **Libraries :** Pandas, NumPy, Matplotlib, Seaborn, Tableau
- **Tools:** Jupyter Notebook, Google Colab, VS Code
- **Frameworks:** React, Flask, Django, Node.js

Soft Skills

- Team Collaboration
- Communication Skills

EDUCATION

SRKR Engineering College, | Bachelor of Technology (B.Tech) in AI&DS

Bhimavaram

- **Cumulative GPA:** 9.22 / 10.00
- **Expected Year of Completion:** 2027

EXPERIENCE

Machine Learning Project – Spam Message Classification (personal project)

- Built a spam detection model using **Logistic Regression** algorithm.
- Processed and vectorized text data using **TF-IDF**.
- Achieved over **90% accuracy**; evaluated using a **confusion matrix** and cross-validation

Altair Data Science Course (Cohort 10)-Eduskills Portal | Completed: [2024]

- Completed a comprehensive course on **Data Science** covering topics like data preprocessing, machine learning algorithms, and data visualization using **Altair** and **Python**.

Cloud Security Course (Cohort 11) – Eduskills Portal | Completed : [2025]

- Completed a practical course on Cloud Security covering cloud fundamentals, security best practices, risk management, and secure cloud architecture principles.

Data Visualization Intern — Deloitte | Completed: July 2025

- Completed an internship focused on data visualization using Tableau.
- Developed interactive dashboards and reports to present business insights clearly and effectively.

INTERESTS

- Problem Solving
- Data Analysis & Visualization
- Reading Books and Playing Games(mostly preferred online)
